Market Demand & Body Type Preferences

Of **10,247 total units** sold, **SUVs command 35.6%** of market share — the dominant segment by a clear margin. Sedans hold 27.8% and Hatchbacks 18.7%, while Bakkies and niche segments account for the remaining 17.9%.

Buyer preference strongly favors utility and versatility, with SUVs and Bakkies together representing **45.1%** of all transactions — a critical signal for inventory strategy.

Top 5 Automotive Brands by Volume

Toyota leads decisively with 1,842 units — 34.6% ahead of Volkswagen (1,368). Ford holds a solid third position at 1,256 units.

Premium brands demonstrate strong positioning: **BMW** (986 units) and **Mercedes-Benz** (785 units) capture meaningful volume in the luxury segment, underscoring robust demand for high-end vehicles across the market.

REVENUE ARCHITECTURE

Pricing Tier: Volume vs. Revenue Contribution

Volume Distribution

Revenue Contribution

Mid-Range dominates both volume (43.7%) and revenue (44.2% = \$101.42M). Premium contributes 37.2% of revenue from just 27.9% of volume — the highest revenue-per-unit efficiency in the portfolio.

Revenue Breakdown by Brand

Toyota leads revenue at \$45.6M, followed by Volkswagen at \$38.7M. Notably, **BMW generates \$32.1M** — outpacing Ford (\$28.9M) despite selling 21.5% fewer units, demonstrating superior premium pricing power.

Mercedes-Benz rounds out the top five at \$24.6M, reinforcing the outsized financial impact of the luxury segment relative to volume.

Consumer Preferences: Mileage & Fuel Profiles

Vehicle Mileage Breakdown

Fuel Type Distribution

Low-mileage preference is clear: 72.3% of buyers choose vehicles under 100K km. Petrol dominates at 51.3%, but alternative drivetrains — Hybrid (7.8%) and Electric (5.1%) — represent a growing **12.9% combined share**.

Key Strategic Insights & Action Items

Geographic Focus

Gauteng and Western Cape are the top-performing provinces. Concentrate acquisition and marketing investment in these high-yield regions.

Inventory Strategy

Prioritize **mid-range SUVs under 100K km** — the highest-revenue, highest-demand segment combining volume leadership with premium pricing efficiency.

Growth Trajectory

Sales volumes are up **+15.6%** with revenue growing even faster at **+18.3%**. Buyer behavior confirms strong demand for utility vehicles and newer, lower-mileage assets.
